

LAWRENCE

THE DIRECTOR
OF LIBRARIES

November 1, 1960

FOIAb3b

Dear Paul:

Apparently my good friend Tom Smith and I both wrote at once about the Atlas of Soviet Administrative Maps, published recently by the Central Intelligence Agency. FOIAb3b Tom had written to your [redacted] just as I had written directly to you.

Since this is in limited distribution, and because of our youthful but vigorous Slavic program here at KU, I'm very appreciative of the generosity of your office in forwarding a copy to this library. I hope you will accept personal thanks from me and perhaps at the same time pass thanks on also to [redacted] who has in FOIAb3b addition, as I understand it, kindly suggested the possibility that relevant de-classified materials may on occasion be sent here in support of our Slavic program. It may be of interest to you to know that vigorously as of last year the University began a new Far Eastern program, with Federal support.

In addition, let me particularly congratulate you for having an organization which was able so quickly and efficiently to coordinate the results of the two letters from KU. I bow to you!

I see your daughter on occasion because she passes our house on her way to and from the dormitory. She certainly looks in good health and in good spirits. It was great fun seeing you here if only so briefly when you brought her out. I do hope that you and your wife will be visiting her again.

Yours sincerely,

Robert Vosper
Director
